The story

The landmark Markham House, the original sales office for Laurelhurst was on the brink of demolition. John McCulloch, architect and developer, stepped in, with the help of the community, to save and totally rebuild it. 16 man years and two million dollars later the house is a masterpiece. Built around a light-filled center atrium, the spaces are transcendentally beautiful and endlessly creative. This harmonious work of art defies the norms of remodels for something wholly unique and beautiful. Each space is designed with wit, whimsy and surprise.

“Built thoughtfully from design up.”
